### **REQUEST FOR PROPOSALS FOR A PARKING GARAGE AND TRANSPORTATION FACILITY INTERFACE PLANNING STUDY**

The North Central Texas Council of Governments (NCTCOG) is requesting consultant assistance to conduct a Parking Garage and Transportation Facility Interface Planning Study. The study will explore opportunities for additional involvement in the planning, design and funding of parking garages that possess unique benefits aiding in innovative multifunctional outcomes at various locations in the region.

The purpose of this Request for Proposal is to secure engineering and planning expertise to assist communities in planning for a parking facility that maximizes the transportation land-use objectives of the community. These areas are included in Mobility 2040 as future planning areas and require a feasibility study to evaluate a parking interface to identify parking availability to reduce congestion and improve air quality.

Proposals must be received no later than 5:00 pm, on Friday, March 31, 2017, to Michael Morris, P.E., Director of Transportation, North Central Texas Council of Governments, 616 Six Flags Drive, Arlington, Texas 76011. Copies of the Request for Proposals will be available at [www.nctcog.org/rfp](http://www.nctcog.org/rfp) by the close of business on Friday, March 3, 2017.

NCTCOG encourages participation by disadvantaged business enterprises and does not discriminate on the basis of age, race, color, religion, sex, national origin, or disability.
